Business Review

Mobile business – Hong Kong and Macau

Mobile business turnover was HK$4,452 million for the first half of 2013, 15% lower than that for the same period of 2012 mainly due to lower mobile hardware sales. Mobile hardware revenue reduced by 28% compared with the same period in 2012. Mobile service revenue reduced by 3%, as the business transited from a subsidised handset business model to a non-subsidised handset business model. The application of this model began in 2010 and the related transition impact was completed in the first half of 2013. EBITDA and EBIT for the first six months of 2013 were HK$941 million and HK$650 million respectively, representing a reduction of 5% and 3% respectively, compared with the same period in 2012. The business growth momentum was affected by fewer number of popular devices being available in the period and transition to a non-subsidised handset business model, as mentioned above.

As of 30 June 2013, we were serving approximately 3.78 million customers in Hong Kong and Macau (30 June 2012: 3.64 million). As of 30 June 2013, 61% (30 June 2012: 55%) of our Hong Kong and Macau 3G and 4G Long-Term-Evolution ("4G LTE") postpaid customers were using smart devices, as the upward migration of existing customers to higher-value services, including 4G LTE plans, continued.

The Group, via our 50% owned joint venture, acquired a block of 10MHz spectrum in the 2500/2600 MHz band during the first half of 2013. This will enable us to increase our network capacity and to provide our customers with continued high quality services.

Looking forward, the financial performance of our mobile business is expected to stabilise in subsequent periods with the completion of the transition to a non-subsidised handset business model in the first half of 2013 and the number of customers using higher-value services continues to grow.

Fixed-line business

The fixed-line business exhibited encouraging growth during the first half of 2013. Service revenue for the first half of 2013 was HK$1,927 million, representing an increase of 12% from HK$1,725 million for the first six months of 2012 with growth in all major segments. EBITDA and EBIT for the first half of 2013 were HK$593 million and HK$233 million respectively, an increase of 16% and 28% respectively against the same period in 2012.

In the first half of 2013, our international business extended its overseas coverage and interconnections with operators worldwide. Our corporate and residential businesses, leveraging the strength of our fibre network capability, further strengthened its collaboration with various leading market players.

The fixed-line business is expected to maintain its momentum as it continues to expand its range of service offerings to customers and to provide better customer experiences via speed and service upgrades.

Outlook

The performance of our mobile business for the first half of 2013 was affected by a fewer number of popular handset models being launched in the period and completion of a transition to a non-subsidised handset business model in its customer base. However, the growth in fixed-line business more than covered the shortfall in mobile business during the period and accordingly the integrated business as a whole enjoyed a positive growth. With the transition of our mobile business to a non-subsidised handset business model completed in the first half of 2013 and more handset launches expected later in the year, the business is well positioned for continued sustainable growth. The Group will continue to enhance service offerings for our customers and invest in network projects in a disciplined manner in order to increase returns for our shareholders.

Finally, I would like to take this opportunity to thank the Board and all staff members for their dedication, professionalism and contributions to the Group.

Management Discussion and Analysis

Financial Review

Consolidated turnover was HK$6,149 million for the first half of 2013. The 9% decrease in consolidated turnover when compared with the first half of 2012, was mainly the result of a 28% reduction in mobile hardware sales because fewer popular devices became available during the period. The reduction in mobile hardware sales was partially offset by a 3% increase in consolidated service revenue which was mainly the result of better performance in the carrier market of our fixed-line business, which was in turn partially offset by lower mobile service revenue, reflecting the effect of applying a non-subsidised handset business model. Cost of inventories sold declined, as did hardware sales, from HK$2,369 million for the first half of 2012 to HK$1,668 million for the same period in 2013.

Total operating expenses, excluding cost of inventories sold, increased from HK$3,566 million for the first six months of 2012 to HK$3,661 million for the same period in 2013, representing 3% growth, which was mainly the result of inflationary pressure. The 6% increase in staff costs was mainly because of salary increment and an increase in headcount. Customer acquisition costs, including cost of customer retentions, rose by 10% as a result of an increase in retention-related costs for the mobile business. Other operating expenses rose slightly by 2% for the first half of 2013 as a result of stringent cost control.

Consolidated EBITDA rose by 2% from HK$1,440 million for the first six months of 2012 to HK$1,471 million for the same period in 2013. Consolidated EBIT grew by 3% from HK$795 million for the first half of 2012 to HK$820 million for the first half of 2013.

Gearing ratio, calculated by dividing net debt by total net capital, was 27% (31 December 2012: 24%) as a result of increased borrowings. Interest and other finance costs rose from HK$77 million for the first half of 2012 to HK$87 million for the same period in 2013 due to the higher level of borrowings together with an increase in market interest rates.

Share of losses, in respect of joint ventures for the first six months of 2013, amounted to HK$4 million compared with HK$2 million for the same period in 2012. Taxation was HK$39 million for the first half of 2013 compared with HK$23 million for the same period in 2012, as a result of better performance of the fixed-line business, while the tax losses in mobile business were not yet fully utilised.

Overall, the profit attributable to shareholders of the Company grew from HK$562 million for the first six months of 2012 to HK$572 million for the corresponding period in 2013.

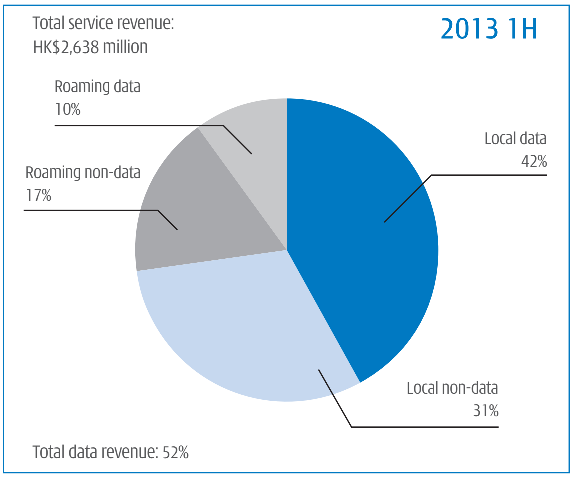
Business Review

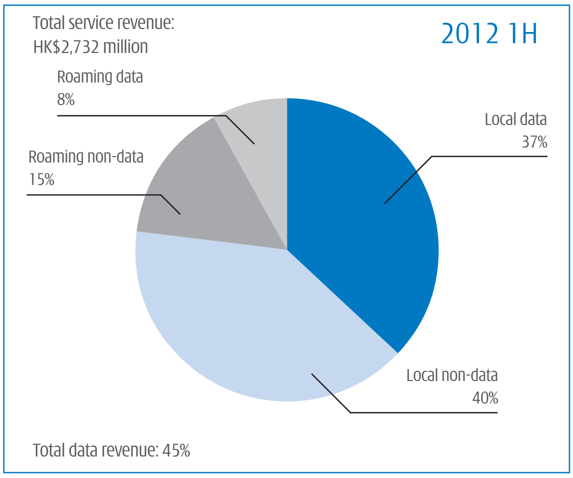
The Group is engaged in two principal businesses – mobile and fixed-line.

Mobile business in Hong Kong and Macau

Turnover for the first six months of 2013 was HK$4,452 million compared with HK$5,241 million for the first half of 2012. This was the result of a 28% reduction in hardware revenue, as well as a shortfall in mobile service revenue under the non-subsidised handset business model[(1)]. As data communications became more popular, overall data service revenue[(2)] accounted for 52% of total mobile service revenue for the first half of 2013 compared to 45% for the same period in 2012.

Mobile service revenue





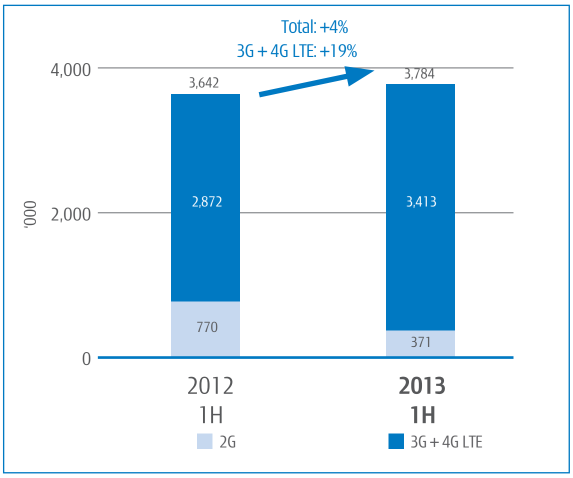
Notes:

(1) Under the non-subsidised handset business model, customer spending includes a portion of customer contribution to handset, or other devices, in a bundled service and hardware plan and such a portion of customer contribution is deducted to arrive at mobile service revenue.

(2) Data service revenue is defined as customer payment for internet and data access services, excluding messaging, content and related services.

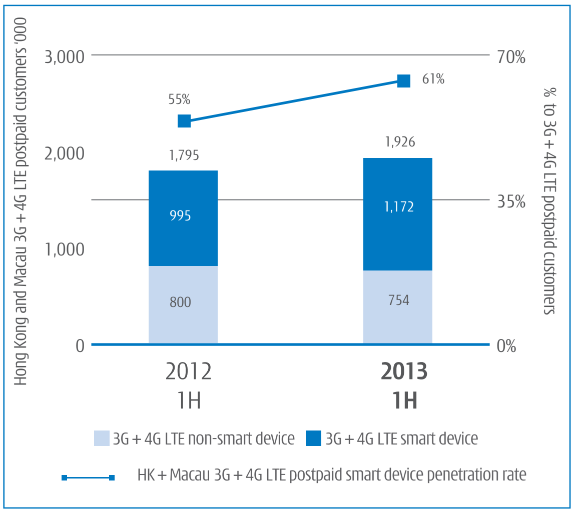
As of 30 June 2013, our Hong Kong and Macau customer base amounted to approximately 3.78 million. Postpaid 3G and 4G LTE customers accounted for 97% of our total postpaid customer base. The number of Hong Kong and Macau postpaid customers totalled approximately 1.99 million as of 30 June 2013.

Total customers

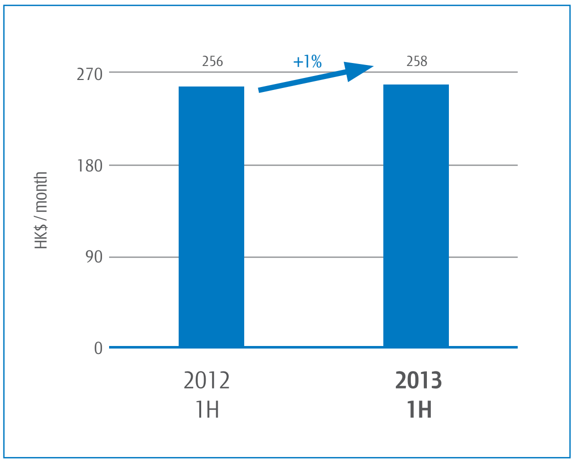


Adoption of smart devices continued, with smart device penetration of our 3G and 4G LTE postpaid customer base in Hong Kong and Macau increasing to 61% as of 30 June 2013 (30 June 2012: 55%). Blended postpaid gross ARPU[(3)] for the first half of 2013 was HK$258, compared with HK$256 for the same period in 2012. Blended postpaid net ARPU[(3)] for the first half of 2013 was HK$208, compared to HK$213 for the same period in 2012. The reduction in net ARPU for the period was mainly due to the transition to a non-subsidised handset business model as mentioned above.

Smart device penetration



Blended postpaid gross ARPU



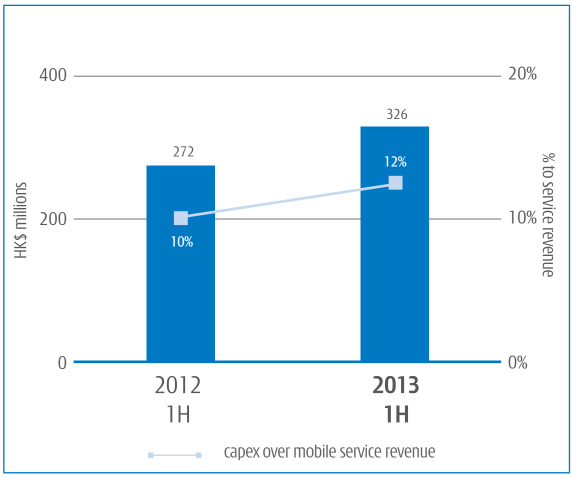
Note:

(3) *Gross ARPU is defined as monthly average spending per user including a customer's contribution to handset, or other devices, in a bundled service and hardware plan. Net ARPU is defined as monthly average spending per user excluding a customer's contribution to handset, or other devices, in a bundled service and hardware plan.*

Mobile business EBITDA was HK$941 million for the first half of 2013, representing a 5% decrease compared with the first half of 2012, while the corresponding EBIT was HK$650 million for the first half of 2013, representing a 3% decrease compared with that for the same period in 2012.

Capital expenditure on property, plant and equipment for the first six months of 2013 amounted to HK$326 million, and represented 12% of mobile service revenue for the period, while capital expenditure for the first six months of 2012 was HK$272 million, which represented 10% of mobile service revenue for the same period. The increase in capital expenditure was the result of continued network investment.

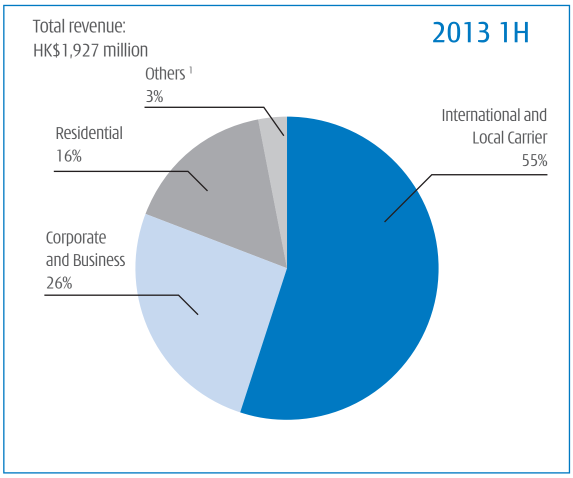
Mobile capex

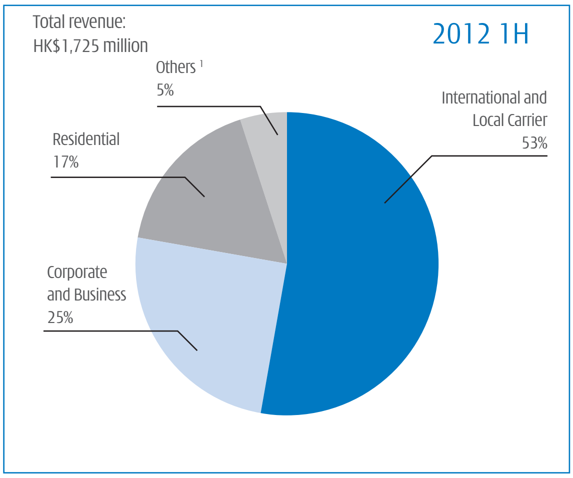


Fixed-line business

Turnover showed a 12% increase, from HK$1,725 million for the first half of 2012 to HK$1,927 million for the same period in 2013. Our carrier market business benefited from extended global reach and scale of operation, and continued to account for the largest share of total fixed-line revenue. Revenue from the carrier market increased by 17% from HK$909 million for the first half of 2012 to HK$1,059 million for the same period in 2013. Revenue from the corporate and business market increased by 16%, from HK$426 million for the first six months of 2012 to HK$493 million for the same period in 2013, as a result of rising demand for our connectivity solutions. Revenue from the residential market grew from HK$288 million for the first half of 2012 to HK$301 million for the same period in 2013.

Fixed-line revenue





[1] *Others include revenue from interconnection charges and data centres.*

EBITDA increased by 16% from HK$510 million for the first half of 2012 to HK$593 million for the same period in 2013. EBIT was HK$233 million for the first six months of 2013, representing an increase of 28% compared with HK$182 million for the same period in 2012.

Capital expenditure on property, plant and equipment amounted to HK$236 million for the first half of 2013, representing 12% of fixed-line service revenue, compared with HK$295 million and 17% of fixed-line service revenue respectively, for the same period in 2012.

(1) HTIHL is a direct wholly-owned subsidiary of HTGHL, which in turn is a direct wholly-owned subsidiary of OHL, which in turn is a direct wholly-owned subsidiary of HIL, which in turn is a direct wholly-owned subsidiary of HWL. (2) Certain subsidiary companies of CKH together hold one-third or more of the issued share capital of HWL. By virtue of the above, CKH was therefore taken to have a duty of disclosure in relation to the interest in the relevant share capital of the Company held by or in which HWL, HIL, OHL, HTGHL or HTIHL was taken as interested as a substantial shareholder of the Company under the SFO. (4) Each of TDT1 as trustee of a discretionary trust ("DT1") and TDT2 as trustee of another discretionary trust ("DT2") holds units in UT1 but is not entitled to any interest or share in any particular property comprising the trust assets of the said unit trust. The discretionary beneficiaries of each of DT1 and DT2 are, inter alia, Mr Li Tzar Kuoi, Victor, his wife and children and Mr Li Tzar Kai, Richard. By virtue of the above and its interest of holding units in UT1, each of TDT1 as trustee of DT1 and TDT2 as trustee of DT2 was taken to have a duty of disclosure in relation to the interest in the relevant share capital of the Company held by or in which HWL, HIL, OHL, HTGHL or HTIHL was taken as interested (together with CKH's interest in the share capital of the Company through certain wholly-owned subsidiary companies) as a substantial shareholder of the Company under the SFO.

(5) Mr Li is the settlor of each of DT1, DT2 and two discretionary trusts ("DT3" and "DT4") and may be regarded as a founder of each of DT1, DT2, DT3 and DT4 for the purpose of the SFO. Mr Li and Mr Li Tzar Kuoi, Victor are respectively interested in one-third and two-third of the entire issued share capital of both of Li Ka-Shing Unity Holdings Limited and Li Ka-Shing Castle Holdings Limited owning the entire issued share capital of TUT1, TDT1, TDT2, Li Ka-Shing Castle Trustee Company Limited ("TUT3") as trustee of The Li Ka-Shing Castle Trust ("UT3"), Li Ka-Shing Castle Trustee Corporation Limited as trustee of DT3 and Li Ka-Shing Castle Trustcorp Limited as trustee of DT4 where appropriate. By virtue of the above and as a director of CKH, Mr Li was taken to have a duty of disclosure in relation to the interest in the relevant share capital of the Company held by or in which HWL, HIL, OHL, HTGHL or HTIHL was taken as interested and held by TUT3 as trustee of UT3 (together with CKH's interest in the share capital of the Company through certain wholly-owned subsidiary companies) as a substantial shareholder of the Company under the SFO.

(6) Such ordinary shares were held by companies of which Mr Li is interested in the entire issued share capital.

(7) Mayspin is a company wholly-controlled by Mr Li. Such interest is duplicated in that of Mr Li held by the companies described in Note (6) above.

(8) Yuda is a direct wholly-owned subsidiary of Mayspin, which in turn is a company wholly-controlled by Mr Li. Such interest is duplicated in that of Mr Li held by one of the companies described in Note (6) above.

Save as disclosed above and so far as is known to the Directors or Chief Executive of the Company, as at 30 June 2013, there was no other person (other than the Directors and Chief Executive of the Company) who had an interest or short position in the shares or underlying shares of the Company which would fall to be disclosed to the Company under the provisions of Divisions 2 and 3 of Part XV of the SFO, or which were recorded in the register required to be kept by the Company under Section 336 of the SFO, or as otherwise notified to the Company and the Stock Exchange.

Introduction

We have reviewed the interim financial report set out on pages 23 to 39, which comprises the condensed consolidated statement of financial position of Hutchison Telecommunications Hong Kong Holdings Limited (the "Company") and its subsidiaries (together, the "Group") as at 30 June 2013 and the related condensed consolidated income statement, the condensed consolidated statement of comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial report to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting". The directors of the Company are responsible for the preparation and presentation of this interim financial report in accordance with International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial report based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial report consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

1 General Information

Hutchison Telecommunications Hong Kong Holdings Limited (the "Company") was incorporated in the Cayman Islands on 3 August 2007 as a company with limited liability. The address of its registered office is Floor 4, Willow House, Cricket Square, P.O. Box 2804, Grand Cayman KY1-1112, Cayman Islands.

The Company and its subsidiaries (together the "Group") are principally engaged in mobile telecommunications business in Hong Kong and Macau and fixed-line telecommunications business in Hong Kong.

The shares of the Company are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") and whose American Depositary Shares, each representing ownership of 15 shares, are eligible for trading in the United States of America only in the over-the-counter market.

This unaudited condensed consolidated interim financial report (the "interim financial report") is presented in Hong Kong dollars ("HK$"), unless otherwise stated. This interim financial report has been approved for issuance by the Board of Directors on 31 July 2013.

2 Basis of Preparation

This interim financial report for the six months ended 30 June 2013 has been prepared in accordance with International Accounting Standard 34 "Interim financial reporting". This interim financial report should be read in conjunction with the annual financial statements for the year ended 31 December 2012, which have been prepared in accordance with International Financial Reporting Standards ("IFRS").

As at 30 June 2013, the current liabilities of the Group exceeded its current assets by approximately HK$1,910 million. Included in the current liabilities were non-refundable customer prepayments of HK$938 million which will gradually reduce over the contract terms of relevant subscriptions through delivery of services. Excluding the non-refundable customer prepayments, the net current liabilities of the Group would have been approximately HK$972 million. A revolving and term credit facility of HK$5,500 million from a group of international commercial banks is in place and is available to the Group until 14 June 2015. As at 30 June 2013, the undrawn facility amounted to HK$1,193 million which, together with the cash flows generated from operating activities, would be sufficient to enable the Group to meet its obligations as and when they fall due. Accordingly, this interim financial report has been prepared on a going concern basis.

3 Significant Accounting Policies

The accounting policies applied and methods of computation used in the preparation of this interim financial report are consistent with those used in the annual financial statements for the year ended 31 December 2012, except for the adoption of the new and revised standards, amendments and interpretations issued by the International Accounting Standards Board that are relevant to the operations of the Group and mandatory for annual accounting periods beginning 1 January 2013.

Except as described below, the adoption of these new and revised standards, amendments and interpretations does not have an impact on the accounting policies of the Group.

IFRS 10 Consolidated Financial Statements and IAS 27 Separate Financial Statements

IFRS 10 establishes a single control model that applies to all entities including special purpose entities. IFRS 10 replaces the parts of previously existing IAS 27 Consolidated and Separate Financial Statements that dealt with consolidated financial statements and SIC-12 Consolidation – Special Purpose Entities. IFRS 10 changes the definition of control such that an investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. To meet the definition of control in IFRS 10, all three criteria must be met, including: (a) an investor has power over an investee; (b) the investor has exposure, or rights, to variable returns from its involvement with the investee; and (c) the investor has the ability to use its power over the investee to affect the amount of the investor's returns. IFRS 10 had no impact on the consolidation of investments held by the Group.

IFRS 11 Joint Arrangements and IAS 28 Investments in Associates and Joint Ventures

IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC-13 Jointly-controlled Entities – Non-monetary Contributions by Venturers. Under IFRS 11, investments in joint arrangements are classified either as joint operations or joint ventures, depending on the contractual rights and obligations each investor has rather than the legal structure of the joint arrangement. Unlike IAS 31, the use of "proportionate consolidation" to account for joint ventures is not permitted. The application of this new standard had no impact on the Group's results of operations or financial position.

IFRS 13 Fair Value Measurement

IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS when fair value is required or permitted. The application of IFRS 13 has not materially impacted the fair value measurements carried out by the Group.

IFRS 13 also requires specific disclosures on fair values, some of which replace existing disclosure requirements in other standards, including IFRS 7 Financial Instruments: Disclosures. Some of these disclosures are specifically required in interim financial statements for financial instruments; accordingly, the Group provides these disclosures in the notes to the interim financial report.

IAS 1 Presentation of Items of Other Comprehensive Income - Amendments to IAS 1

The amendments to IAS 1 introduce a grouping of items presented in other comprehensive income. Items that could be reclassified to profit or loss at a future point in time now have to be presented separately from items that will never be reclassified. The adoption of these amendments affected presentation only and had no impact on the Group's results of operations or financial position.

3 Significant Accounting Policies (Continued)

IAS 19 (Revised 2011) Employee Benefits

IAS 19 (Revised 2011) includes a number of amendments to the accounting for defined benefit plans, including expected returns on plan assets that are no longer recognised in profit or loss, instead, there is a requirement to recognise interest on the net defined benefit liability in profit or loss, calculated using the discount rate used to measure the defined benefit obligation. Other amendments include new disclosures, such as, quantitative sensitivity disclosures. IAS 19 (Revised 2011) requires retrospective application. The adoption of IAS 19 (Revised 2011) had an impact on the net defined benefit obligations primarily due to the difference in accounting for interest on plan assets. The effect of the adoption of IAS 19 (Revised 2011) is explained below:

	Six months ended 30 June	
	2013 **HK$ millions**	2012 HK$ millions
Increase in staff costs	**(7)**	(6)
Decrease in profit attributable to shareholders of the Company	**(7)**	(6)

– basic	**(0.15)**	(0.13)
– diluted	**(0.15)**	(0.13)

	As at 1 January 2013 **HK$ millions**	As at 1 January 2012 HK$ millions
